DETAILED ACTION

Specification

1. The disclosure is objected to because of the following informalities: the item numbers in the specification do not all match the item numbers in the FIGS. For example, page 5 lists the opening as **11** and the ring as **12**; however, in the figures, the opening is **21** and the ring is **22**. Please *carefully* revise the specification to properly correspond to the drawings.

Appropriate correction is required.

Claim Rejections - 35 USC § 102

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. Claim 1 is rejected under 35 U.S.C. 102(b) as being clearly anticipated by Hoffmeister.

4. Hoffmeister discloses the invention as claimed where: **30** is a body to be carried in the hand of a user; and **10** is a template that may be secured to the body which has openings **13** for aligning with predetermined celestial bodies.

5. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
